

2nd SMARC Symposium: New Stream of Chemical Biology

July 25, 2019

Chiba Iodine Resource Innovation Center (CIRIC)
Lecture Hall (1st Floor)

Chiba University (Nishi-Chiba Campus)

13:20–13:30 Opening Remarks

13:30–14:30 Plenary Lecture

Prof. John Paul Pezacki (Ottawa University)

Probes for Examining Host-virus Interactions and Beyond

14:30–15:00 Invited Lecture

Prof. Hirofumi Dohi (Chiba University)

Efficient and Stereoselective Chemical Glycosylation
Using Arylthio Derivatives

15:00–15:30 Invited Lecture

Prof. Kiyoe Ura (Chiba University)

Chromatin Modification: From Structure and Function

Group Photo & Coffee Break

15:45–16:30 Invited Lecture

Prof. Shinichiro Fuse (Tokyo Institute of Technology)

Investigation of Amide Bond Formation
Based on Micro-flow Technologies

16:30–17:00 Invited Lecture

Prof. Midori A. Arai (Chiba University)

Ligand Fishing for Search of Bioactive Natural Products

17:00–17:45 Invited Lecture

Prof. Naoki Kanoh (Hoshi University)

Late-stage Functionalization of Small Molecules
Using Metal Complexes and Enzymes

Mixer 18:00 – (千葉大学レストラン コルザ)

Symposium: **Free**

Contact Address: tarai@faculty.chiba-u.jp
